SOFTWARE TO SYSTEMS, INC.

AntsZ™

Pays For Itself!

(ANSI X-12 837 Version 4010A1 HIPAA Compliant– Direct Electronic Data Interchange Medicare, Medicaid and Blue Shield)

Saves Money - No Per Claim Fees!

Software To Systems, Inc. provides a direct ANSI X12 837/835 link to your software for transmitting from your office! Processing enrollment contracts, obtaining test files from your office, walking through the testing process with you and then installing and training your staff ensures ease of electronic claims filing!

Medicare Part B States

Add **YOUR** state to our list! We are already approved in most states! Call today and find out how your state can be listed. HIPAA ready! Claims processed only in ANSI format. We have over 5 years experience in programming and development in the ANSI arena. Data elements and segments are our specialty, *by design!*
